CONCERNING DYNAMITE.

Millions of Dollars Invested in Its Manufacture in the United States.

Very few people have a correct idea of what dynamite is, of what it is made and the uses to which it is put. To the French belongs the honor of its discovery and its practical use.

Nitroglycerin is the force of all high explosives. Dynamite is the name most usually given to these explosives, though other names are sometimes used.

Dynamite is simply nitroglycerin mixed with various ingredients. Nitroglycerin is made by mixing sulphuric and nitric acid with sweet glycerin, the same that is used by the ladies to prevent chapped hands. Mixing the acids and glycerin is where the great danger lies in the making of nitroglycerin. The mixing tank, or agitator, as it is called by dynamite makers, is a large steel tank, filled inside with many coils of lead pipe, through which, while the mixing is in progress, a constant flow of ice water is maintained. This flow of ice water is used to keep the temperature of the mix below 85° degs., as above that point it would explode, and a hole in the ground would mark where the factory had been. The nitroglycerin is stored in large earthenware tanks, which are usually sunk in the ground to guard against blows or severe concussion.

The other ingredients for making dynamite are, nitrate of soda (which is found only in Chili, carbonate of magnesia and wood pulp.

Dynamite is put in paper shells usually 1 1/2 inches in diameter and 8 inches in length, and weighs about one-half pound to each shell or cartridge. It has largely taken the place of black powder for blasting, as it is many hundreds of times stronger, and consequently more economical. It is used chiefly in mining all kinds of ores, coal and rock, and submarine blasting and railroad building. Without its aid many railroads, especially those crossing the Rocky mountains, could not have been constructed; without it Hell Gate, in New York harbor, could not have been destroyed, and without it the miner, at prices now paid for mining ores, could not earn his bread.

Dynamite will not explode from any ordinary fall or jar. It will burn with-

out explosion and freezes at 42 degs., 10 degs. above ordinary freezing point. The bomb is made of metal or glass and filled with pure nitroglycerin arranged so as to explode by severe contact with any hard object. These bombs are of course made by a reputable dynamite factory.

Five or six millions of dollars are invested in the manufacture of dynamite in the United States, and its use is constantly on the increase. The fumes of nitroglycerin produce intense headache, which can be cured by taking a very small dose of it internally.—Detroit Free Press.

The Dog Knows.

A few weeks after my marriage we went to our future home, a farm ten miles from the town of L., which was my husband's birthplace and the home of his family. Mr. E.—had kept bachelor's hall for a year.

Among his possessions was a beautiful setter dog, Bounce, who soon became much attached to me. He followed me everywhere, and in the frequent absence of my husband from the house never allowed me to get out of his sight.

We often drove to L.—for a visit of several days, and sometimes to my own home, thirty miles away. On our return the dog's delight was a very pleasant welcome, and when Mr. E.—got out of the buggy to open the gate, Bounce, after greeting him, would jump into the vacant place in the buggy and he and I would drive up to the house.

Once, however, Mr. E.—was already at home and I, with a small, precious bundle of humanity drove up in the old carriage from my mother's. When we arrived no one was in sight, although we were expected during the day.

We were in the house, and baby was lying quietly on the bed, before Mr. E.—heard of our arrival and hurried in, closely followed by Bounce. My welcome was more demonstrative than usual, as it was long since the dog had seen me. In a little while I turned to the bed, and taking baby, held him down for Bounce to admire.

Never shall I forget the look of reproach and sadness in those almost human eyes. He stood for one instant looking at me, and then turned and walked slowly from the room. From that day, for all the five years of his after life, he ignored my existence and that of baby, never coming near me, nor allowing the child to touch him.—Cor. Youth's Companion.

The Rat Must Go.

In view of the discovery I have made that the rat is liable to tuberculosis—the disease which is and has been for a long time more discussed by the faculty than almost any other—I insist that every effort should be made to exterminate the murine, especially those species that come more nearly in contact with man. The plea that the rat is a good scavenger should be of no avail to save him. The jackal of the far east is a scavenger and the turkey buzzard of our Gulf states is another, but with all the appliances of civilization at command it is necessary for us to hold these filthy creatures sacred for all time!

The rat must go. He must be swept away from the earth and left to figure as a thing of the past, like a dodo or the megatherium or the pterodactyl.—Dr. S. E. Weber's Lecture.

Country Folk Are Tender with Birds. Real country folk are very tender in their dealings with the birds that live near them. In the course of my experience, extending over many years, I have never known a case of wanton cruelty occur in regard to wild birds. The laboring man, whose work so often lies far from the haunts of men, seeks companionship with the birds. Of these none is more friendly than the robin, who is sure to appear, however lonely the place.—Cornhill Magazine.

A Clever Retort.

A legal dignitary, who had risen from a humble rank of life, was twitted by an opponent for "having begun life as a barber's boy." "It is true that I did so," was the answer; "and if you had begun in a similar station you would have remained there till the present day."—London Standard.

THE HOPELESS SICK

Healed As By Magic.

Unparalleled Success of Dr. French.

Diseases of All Kinds Cured by the Laying On of the Hand.

Hotel Vendome, 188 Fulton-st.

The following case and remarkable cure illustrates the wonderful power and superior medical knowledge of Dr. French in treating chronic diseases which at first glance seem entirely hopeless and incurable. Mr. Thomas Langdon of 11 East street was attacked with a complication of diseases which rendered the efforts of many able physicians to check its progress. It proved to be a severe case of catarrh of the bladder—complicated with dyspepsia and nervous debility of an aggravated form. Mr. Langdon had the best medical attendance that could be obtained, but grew steadily worse, and was pronounced incurable by his physicians. At the time of his first visit to Dr. French he was in a thoroughly broken down and hopeless condition, was passing three or four times the normal quantity of urine, and being obliged to get up from fifteen to twenty times every night, which was tiring and painful. He was unable to sleep, and was in constant pain, and could not obtain the necessary rest to build up the broken constitution, and, more than all, suffered mental tortures from a constant feeling of dread and apprehension, caused by the debilitated condition. The effect of the magnetic treatment was surprising. Mr. Langdon began to improve from the first treatment. He regained his appetite, and was able to sleep, and the natural action of the system was restored rapidly. This long-suffering invalid remained under treatment only eight weeks, and is now fully restored to health. This case, like hundreds of others that have been treated at and experimented upon by the self-styled regulars, is only one of many that are received daily and made well by Dr. French's magnetic powers and thorough knowledge of the human system and its ailments. No matter what your disease, do not be discouraged, but visit Dr. French, Hotel Vendome, and be cured.

The worst cases of dyspepsia, scrofula, catarrh, skin diseases, blindness, deafness, loss of voice, neuritis and rheumatism have been permanently cured, and are being treated and cured every day. Come now before it is too late and make full use of the latest and improved methods of curing diseases. No dosing the stomach. Magnetism is the greatest boon of the age. Office hours from 9 a. m. to 6 p. m.

An Undisputed Test of Merit.
A medicine that has been a household remedy for over fifty years and used in that time by more than \$150,000,000 persons must have had some merit. Such a medicine is found in Brandreth's Pills. This fact demonstrates the value of these pills better than any statement of the proprietors. It will be observed that the dose required to cure is small. One or two pills taken every night for ten or twenty days will cure dyspepsia, constiveness, rheumatism, liver complaint, biliousness, or any disease arising from an impure state of the blood.

Brandreth's Pills are purely vegetable, absolutely harmless, and safe to take at any time.

Sold in every drug and medicine store, either plain or sugar coated.

That Mysterious Chamber.
Reed's lake possesses one of the most unique and puzzling places of entertainment to be found at any resort, east or west. It is contained in the handsome structure in the pavilion grounds which is called the "Mysterious Chamber." It consists of a limitless expanse of broad halls and spacious apartments which form a vast crystal labyrinth into which one may wander for interminable distances. It illustrates one of the most marvelous facts of science and deserves the patronage of the refined and educated classes as well as the seekers after recreation and wonders.

Physicians Outdone.
My wife has been suffering with female trouble of the severest kind for over three years. I have paid twenty-five dollars during the last three months and she had no relief. She had doctored continually with the best of physicians.

I bought three bottles each of Dullam's Great German Female Tonic and Dullam's Great German Blood, Liver, Stomach and Kidney Cure and can say today that she is entirely cured.

their improvements have just been completed. It has taken a year's time and a large amount of money to modernize all the streets; lay stone sidewalks around every block; put pure water in every street; plant trees, and in fact make the model residence location of Chicago. This is what has been accomplished with Sheldon Heights. Lots are now being sold upon prices and terms that make Sheldon Heights in Chicago real estate. SIXTY MILLION BUSHELS OF
Wheat—A Bushel for Every Inhabitant of the United States—The Kansas Crop of '22.

Never in the history of Kansas has that state had such bountiful crops as this year. The farmers cannot get enough hands to harvest the great crop, and the Santa Fe Railroad has made special trains from Kansas City and other Missouri River towns, to induce harvest hands to go into the state. The wheat crop of the state will be from sixty to sixty-five million bushels, and the quality is high. The grass crop is made, and is a very large one; the early potatoes, rye, barley and oats crops are made, and are all large. The weather has been propitious for corn, and it is the cleanest, best looking corn to be found in the country today. Cheap rates will be made from Chicago, St. Louis and all points on the Santa Fe east of the Missouri River, to all Kansas points, on August 30 and September 17, and these excursions will give a chance for eastern farmers to see what the great Sunflower State can do. A good map of Kansas will be mailed free upon application to Geo. J. Byrne, 723 Monmouth Block, Chicago, Ill., together with reliable statistics and information about Kansas lands.

These figures represent the number of bottles of Dr. King's New Discovery for consumption, coughs and colds, which were sold in the United States from March, '91, to March, '92. Two million, two hundred and twenty-eight thousand, six hundred and seventy-two bottles sold in one year, and each and every bottle was sold on a positive guarantee, that money would be refunded if satisfactory results did not follow its use. The secret of its success is plain. It never disappoints and can always be depended on as the very best remedy for coughs, colds, etc. Price 50c and \$1. At Peck Bros' drug store.

Strength and Health.
If you are not feeling strong and healthy, try Electric Bitters. If "La Grippe" has left you weak and weary, use Electric Bitters. This remedy acts directly on Liver, Stomach and Kidneys, gently aiding these organs to perform their functions. If you are afflicted with Sick Headache, you will find speedy and permanent relief by taking Electric Bitters. One trial will convince you that this is the remedy you need.
